VIRTUAL TEAM BUILDING EVENT

MURDER BY MIDNIGHT

Activity Description

A virtual team experience with mystery and intrigue.

Lord Digley is dead! Foul play is suspected after his plans to distribute his fortune derived from the sapphire mines of Tasmania are about to be revealed. But who dunnit? And how?

Guided by our very own Inspector Ivor Case, your teams will attempt to unravel the mystery by exploring Lord Digley's Manor House. They will find clues to decipher, tasks to fulfil and interviews with family, staff and friends to unpick who were guests to the dinner where Lord Digley's plans were to be revealed.

In teams of detectives, each player can choose their route around the rooms within the 4 storeys of Digley Manor. Each detective in your team has a specialist skill. Certain clues require the specialism and only the detective with the related skill can unlock its secret. In various rooms there are suspects who give evidence. But listen carefully to the answers to the questions they are asked as they may reveal more than they perhaps realise!

Each participant will need a 'laptop' to connect to a Zoom call where their specific floor plan of the Manor is displayed. They also need a 2nd device (e.g their smartphone) with which they can direct their personalised avatar around the floor plan of the Manor, displayed in their Zoom Team breakout room.

Each team needs to work together to cover the entire Manor to reveal its secrets. The top detective team is the one which first discovers the murderer, the correct poison used, the motive and how the poison was administered. Please note; this event can be run ONLY on ZOOM. No preparation is required prior to the event.
