

"AN EXHILARATING AND
VISUALLY STUNNING EVENT."

ROLLERCOASTER

A CREATIVE CHALLENGE PERFECT FOR:

- Engagement
- Fun
- Problem Solving
- Competition or collaboration
- Time management
- ...and more!

INDOOR TEAM BUILDING EVENT

ROLLERCOASTER

Activity Description

A collaborative/competitive technical and creative challenge

A fun and thrilling team challenge! Your group is given the task to design the latest white-knuckle rollercoaster to hit the market.

All teams are equipped with specialist materials including a tall, slot-fit tower with an auto trigger mechanism and bespoke diverter boxes, which help to add complexity to the designs. Each team is responsible for creating their own unique section of the final giant rollercoaster. Collaboration; The entire group creates a single rollercoaster. Each team is responsible for their ball getting from the top of their tower to the trigger of the next tower. The ride must be seamless from the first team to the last for the ultimate success of all.

Competition; There can be between 2 and 4 rollercoasters, each compiled with multiple teams... who will build the fastest to reach the central tower first?

The event is wrapped up with a grand finale which brings the teams together, creates tension, excitement and huge cheers as the teams celebrate what they have achieved together.

Learning Outcomes

One team, one goal OR competitive
Effective communication
Creativity

Activity Type

Construction
Problem solving
Visually stimulating

ROLLERCOASTER

Timeline and Logistics

Timeline based on a 90 minute event:

- 10 Mins** Professional presenter welcomes everyone and outlines the challenge that the teams need to complete.
- 5 Mins** Teams familiarise themselves with the kit and assign roles.
- 65 Mins** Construction time – towers, diverter boxes and tracks all linking together to form a continuous track – please note that we can offer as a competitive event.
- 10 Mins** Finale – will your teams Rollercoaster be up to the job?

Logistical notes

- Ideal team size is 6-8 people.
- We would require 1 large room capable of accommodating the number of delegates in cabaret style.
- Ideal for 90 minutes – 2 hours

Client Testimonials

Here's what previous clients thought of Rollercoaster...

“The Rollercoaster activity was a brilliant team building activity, and a brilliant use of the attending civil engineering graduates knowledge! Thank you very much to the Blue Hat team”

COLAS

“Thanks so much for the team being so organised and helpful yesterday. It was a really great team building experience and I have only heard positive feedback from staff about the activity, I loved how it really got everyone working together collectively as a small team with a wider goal. Thank you Blue Hat for your hard work it is much appreciated.”

COMIC RELIEF
